

ETHICAL / FAIR TRADE POLICY

Whiting Landscape Ltd agrees with the principles of ethically sourced and fairly traded goods and recognises the need to ensure better prices, decent working conditions, local sustainability and fair terms of trade for workers in the developing world.

We ensure that all timber related purchases are made from FSC approved suppliers and aggregate purchases comprise recycled materials wherever possible.

Fair Trade addresses the injustice of conventional trade, which traditionally discriminates against the poorest and weakest producers.

We support the Fair-Trade Foundation which is a development organisation committed to tackling poverty and injustice through trade.

All our employees will be made aware of the principles of fairly traded goods.

Due to the nature of our business, we do not purchase many materials that are associated with the Fair-Trade regime. As far as is practicable, consumables will be purchased bearing the Fair-Trade mark and certification, from the Fair-Trade products as detailed on the Fairtrade Foundation website (www.fairtrade.org.uk).
